<i>RECOMMEND. (unc): BUY TARGET (unc): C\$19.50/sh RISK RATING: HIGH</i>		

*The incoming President, Mr Randy Reichert (P.Eng), has the ideal background for Skeena's next phase with development and operating experience as VP Ops for B2Gold, GM, during development at Fekola, and previous experience at the Snip Mine in BC. Better still, adding technical leadership to second rank allows the CEO to concurrently focus on corporate strategy and financing arrangements. All of this is in 'the right direction' as Skeena advances towards construction, and we expect to see the management team continue to evolve ahead of future production. **We maintain our 0.8xNAV multiple and C\$19.50/sh PT based on 65% gearing, although given flexibility on anything from exploration spend to divestments and alternative financing such as silver streaming, this is only an approximation for now.***

New mine builder joins as President from B2Gold to spearhead Eskay's development

Skeena announced the appointment of Randy Reichert (current SKE board member) as President of the company effective April 2022. Mr Reichert will be responsible for all technical aspects of the company's operations (geology, sustainability engineering, and permitting) and brings over 30 years' experience in mining with him from his current role as VP Ops at B2Gold (three international gold operations). Prior to this, Mr. Reichert was General Manager at the Fekola Mine in Mali where he was part of the development team and led the transition from development into operations. The company will continue to add engineering and operational expertise to the team as they transition towards construction.

Why we like Skeena Resources

- Large high-grade open pit with SCPe >500koz upside potential in coming 12-18M
- Shift in market dynamics allows concentrate sales for lower capex
- Optionality from high-grade Snip mine nearby to blend concentrate or add ounces
- Catalyst heavy with drilling, metallurgy, PFS and DFS in coming 18M

Catalysts

- 1H22: Permitting update
- 1Q22: BFS including expanded resource
- 1H/2H22: AWF infill / expansion drilling
